

INTRODUCTION

ASA Is...

The American Sociological Association, founded in 1905 as the American Sociological Society, is an organization of persons interested in the research, teaching, and application of sociology. It seeks to stimulate and improve research, instruction, and discussion, and to encourage cooperative relations among persons engaged in the scientific study of society.

The Association has official representation on the Social Science Research Council, the American Association for the Advancement of Science, the American Council of Learned Societies, the International Sociological Association, and others.

The Association holds an Annual Meeting at the end of summer, providing opportunities for the presentation and discussion of research projects and problems. Abstracts of papers presented at the Annual Meeting are made available to all members of the Association.

Publications...

The official journal of the Association is the *American Sociological Review*, published bi-monthly and devoted to research papers and analysis. *Contemporary Sociology: A Journal of Reviews*, also bi-monthly, contains extensive book reviews, review symposia, and occasional reviews of the literature. *The American Sociologist*, published quarterly, contains articles dealing with the profession.

The Association publishes three specialized quarterly journals: *Social Psychology Quarterly* (formerly *Sociometry*), devoted to research in social psychology. *Sociology of Education: A Journal of Research in Socialization and Social Structure* is devoted to studies of education as a social institution. And the *Journal of Health and Social Behavior* is devoted to the sociological analysis of problems of human health and welfare, including the institutions for their diagnosis and management.

ASA's newsletter, *FOOTNOTES*, is published nine times a year and contains departmental news, activities of the ASA and Executive Office, developments on the Washington scene, and the ASA Official Reports and Proceedings. The *ASA Employment Bulletin*, published monthly, contains current position vacancy announcements and is mailed first class (airmail overseas) to all subscribers.

The ASA publishes an annual *Guide to Graduate Departments of Sociology* and an annual *Directory of Members*, each available to members at cost. The ASA also

sponsors the publication of volumes in *Sociological Methodology* and the *Rose Monograph Series in Sociology*.

Members of the Association may also subscribe at reduced rates to numerous domestic and foreign journals related to sociology, and coupons for these subscriptions are sent to members each fall.
